## Education

**University of Engineering and Technology, Vietnam National University (VNU)**

Hanoi, Vietnam

**Major: Information Technology**

Aug 2018 - Jun 2022

Grade: High Distinction (GPA: 3.62/4)

## Objective

Frontend-focused Software Engineer with 6+ years of experience specializing in React, Next.js, NestJS and Node.js. Proven track record of building scalable web platforms used by thousands of users. Strong in UI/UX, performance optimization, and cross-functional collaboration. Experienced in full-stack and mobile development with Flutter.

## Experience

**Teko Vietnam Technology Joint Stock Company**

Hanoi, Vietnam

**Software Engineer III**

Feb 2022 – Present

- Collaborated in an agile cross-functional team with product managers, designers, and tech leads to design, develop, and deliver scalable web products.
- Designed and implemented high-quality, reusable code with comprehensive unit and functional tests, improving system reliability and maintainability.
- Participated in technical discussions, architecture decisions, and code reviews to ensure best practices and consistent code quality.
- Took ownership of critical product modules, continuously improving system performance, scalability, and long-term maintainability.
- Proactively monitored, diagnosed, and troubleshooted production issues through deep technical analysis.
- Mentored junior engineers, shared technical knowledge, and contributed to raising overall team engineering standards.

**Interviewer.AI Pte. Ltd.**

Singapore

**Software Engineer (Remote)**

Nov 2024 – Present

- Developed and maintained full-stack web applications supporting AI-driven interview and avatar systems.
- Built responsive UI components and designed UI/UX prototypes for both web and mobile platforms.
- Researched new technologies and integrated third-party platforms to deliver new product features.
- Provided technical support, debugging, and performance optimization to improve user experience and system stability.
- Proposed and implemented key product features that enhanced usability and overall platform performance.

**Sao Khue Software and Solutions Ltd**

Hanoi, Vietnam

**Full-stack Developer**

Jan 2020 – Jan 2022

- Developed full-stack web applications using modern frontend and backend technologies.
- Designed UI/UX prototypes for websites and internal systems based on client requirements.
- Maintained, optimized, and enhanced existing web systems for performance and stability.
- Provided technical support and resolved system issues for end users.
- Worked directly with clients to gather requirements and deliver customized software solutions.

## Skills & Interests

**Languages:** English (TOEIC 870), Japanese (JLPT N3)

**Graphics:** Figma, Adobe Photoshop, Illustrator, Premiere Pro, After Effects, XD, Canva

**Other Skills:** Experienced in Git version control, Scrum team roles, Technical design documentation, and quick adaptation to new environments.

## Featured Projects

### Tempi.vn

2022 - Present

**Customer:** Technology Joint Stock Company Vietnam (TEKO)

**Description:** Tempi.vn is a Vietnamese no-code platform for creating professional websites and landing pages without coding. It offers drag-and-drop building, AI-generated layouts, ready-made templates, SEO tools, mobile optimization, free hosting, and built-in integrations like forms and chatbots. Tempi also serves as the core rendering engine for subpages of major websites such as phongvu.vn, vnshop.vn, and soibien.vn. It's designed for beginners, freelancers, startups, educators, and students who need a fast, localized solution for building an online presence.

**Team size:** 8

**Role:** Software Engineer & Scrum Master (one of core members)

**Technologies:** React, Next.js, NestJS, MySQL, Go, Kubernetes

**Responsibilities:** Development, design prototypes, propose ideas, optimize code, fix bugs, and perform testing.

**Reference:** <https://tempi.vn>

### Interviewer.AI

2024 - Present

**Customer:** Interviewer.AI Pte. Ltd.

**Description:** Interviewer.AI is an AI-powered video interview platform that automates candidate pre-screening, evaluation, and shortlisting. It matches résumés to job descriptions, assesses technical and soft skills, and ranks candidates within minutes using explainable AI. Recruiters can run asynchronous video interviews with custom questions, verify candidate IDs, and use data-driven insights to choose finalists. Used by 850+ companies, it helps save time, reduce bias, and streamline hiring with ATS integrations and easy interview sharing.

**Role:** Software Engineer

**Technologies:** React, Node.js, AWS Services, FastAPI

**Responsibilities:** Responsible for feature development, prototype design, idea proposal, code optimization, bug fixing, and testing.

**Reference:** <https://interviewer.ai>

### Hoclieu.vn

2020 - 2022

**Customer:** Vietnam Education Publishing House

**Description:** Hoclieu.vn is an online education platform by HEID JSC (Vietnam Education Publishing House) that provides digital learning resources and tools for teaching, learning, and school management in Vietnam.

It offers a large free library of textbooks, exercises, lesson plans, tests, and videos for primary to high school across all major subjects. Teachers can create and grade tests, manage classes, and track progress via its LMS, while students get smart practice, exam preparation (especially for grade 12), discussion forums, and mobile access.

**Team size:** 6 (core members) + 10

**Role:** Full-stack Developer (one of core members)

**Technologies:** ReactJS, ASP.NET Core (C#), MySQL

**Responsibilities:** Development, design prototypes, propose ideas, optimize code, fix bugs, and perform testing.

**Reference:** <https://hoclieu.vn>

**Customer:** Sao Khue Software and Solutions Ltd

**Description:** IPAY is a multi-tenant payment intermediary system connecting banks and merchants. It allows merchants to create and manage payment and collection processes while integrating with banks' APIs to handle transactions.

**Role:** Frontend Developer

**Technologies:** ReactJS, ASP.NET Core (C#)

**Responsibilities:** Development, code optimization, and bugs fixing.
